

Re-use point of the City Hall

CERREC – 4.11. 2014, Prague

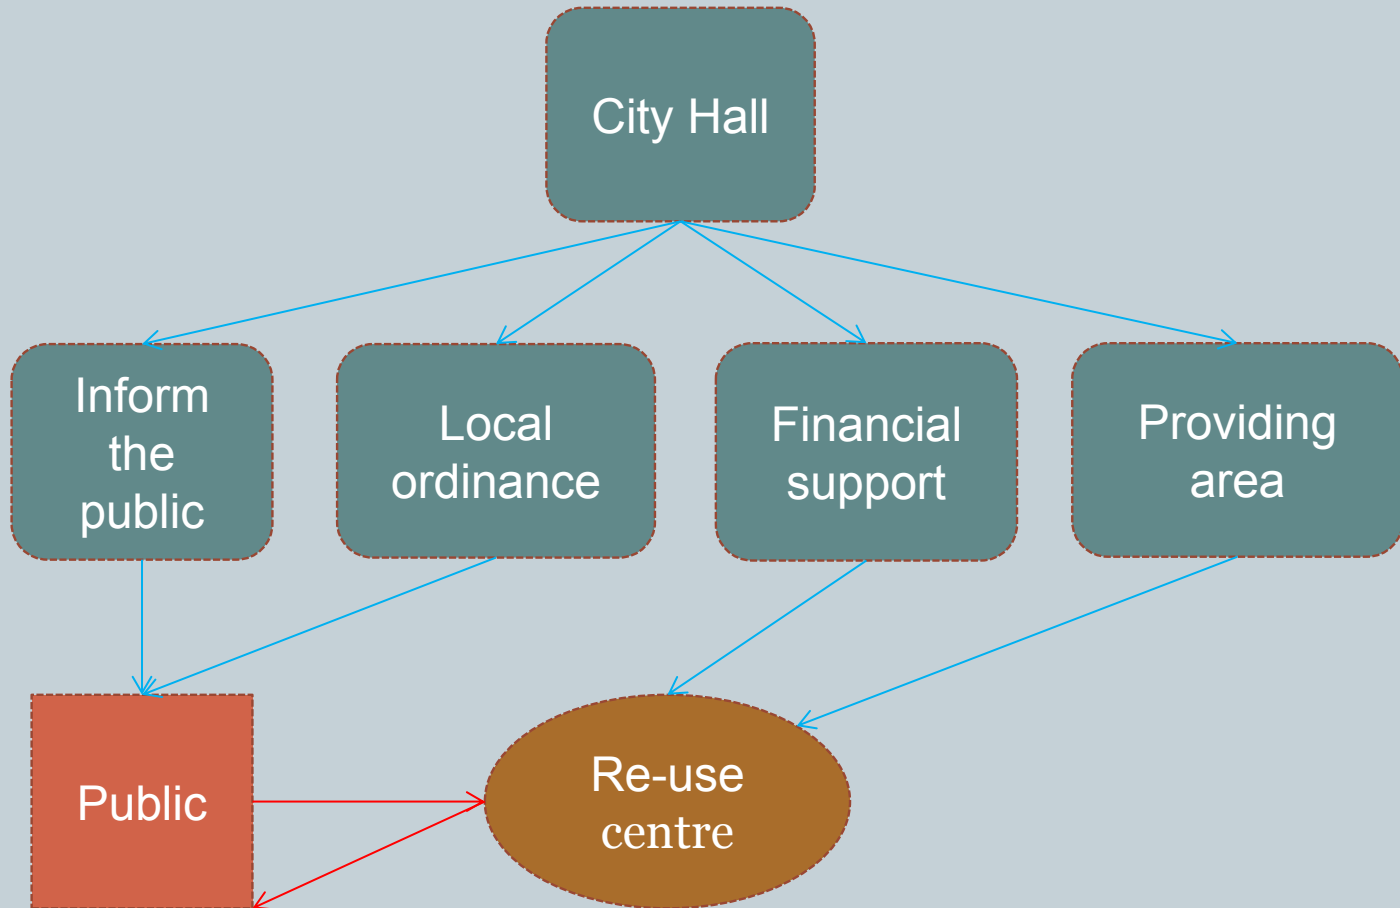

Lukáš Janda

Prague City Hall

- **Prague has two options how to implement idea of re-use under current legislation:**
 - 1. Support from City Hall by means already existing re-use center**
 - 2. Active participation of the City Hall in the re-use Center operations**

1. Support

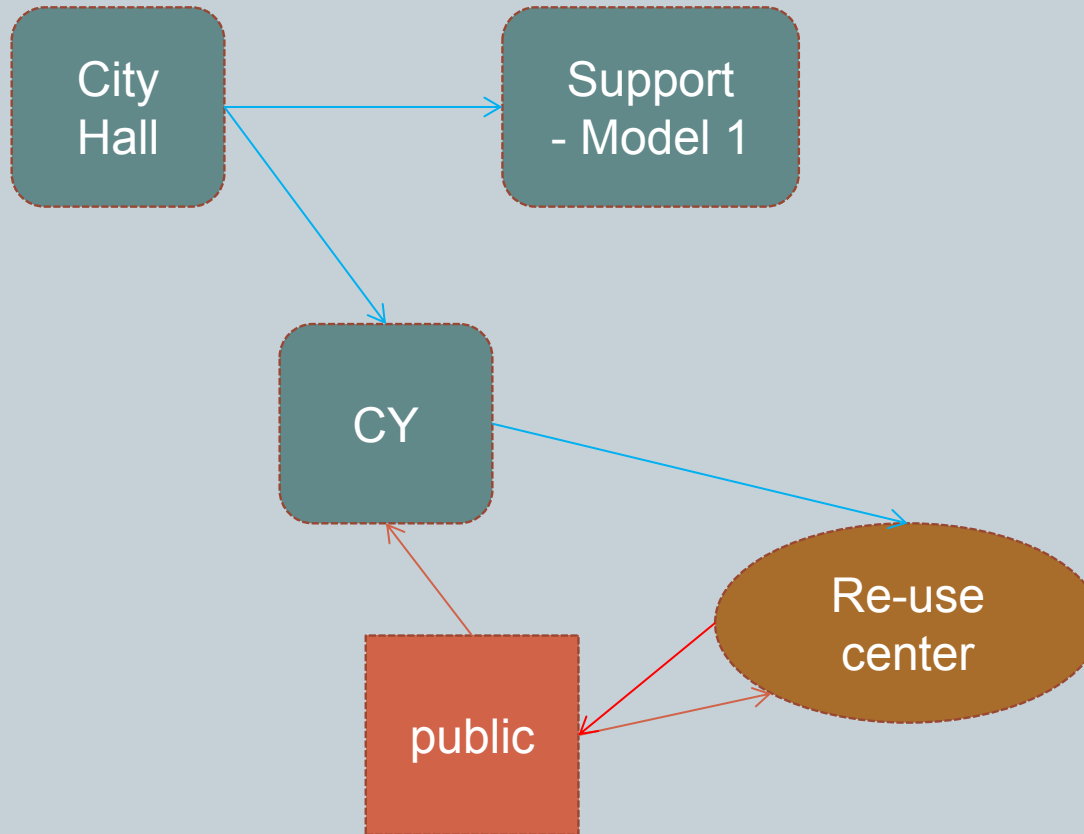

1. Support

- **Inform the public about the possibility where to leave their potential waste**
- **Editing local ordinance – saying that the re-use center is additional place for potential waste**
- **Financial support**
- **Providing necessary area – free of charge or non commercial rent**

2. Active participation

2. Active participation – including collection yards into re-use

- **Specify area for re-use (outside the waste legislation)**
- **Stuff from CY distributed to the re-use center**
- **Unsold stuff possible to give back to the CY as waste**
- **Logistics availability**
- **Support from City Hall (the same as model 1)**

Thank you for your attention
